"After being inactive for 18 years, the Clark County Arts and Humanities Council is again an active organization supporting the various arts organizations in Clark County. This council and the arts organizations are a viable part of Clark County's economy as it produces and supports the creative industry of this area.

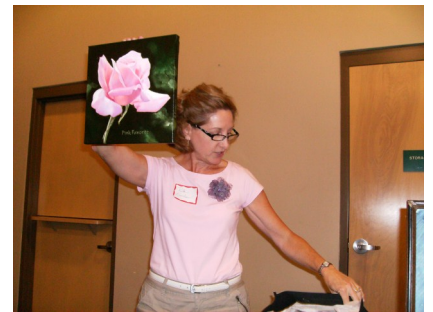

Seeing the need to actively promote the arts in this area, the CCAHC reorganized in January, 2011 with a board of directors, officers and representatives from each of the various arts organizations. In June, 2011 the City of Arkadelphia leased the old Royal Theater on Main Street to the CCAHC. This building needed a great deal of cleaning and repair which will be completed by September 1. The main part of this building will be used for art organization meetings, art education programs, workshops, and exhibits. A ribbon cutting, grand opening reception, and art exhibit is scheduled for October 11.
